

A large, detailed black and white photograph of a bird's wing, likely a gull or similar seabird, showing its feathers and webbed foot. Numerous sharp, metallic spikes are attached to the feathers along the leading edge of the wing, which is a common bird control measure to deter birds from landing on surfaces like roofs or ledges.

ENG

TOP SELLING MODELS

Mod. 304

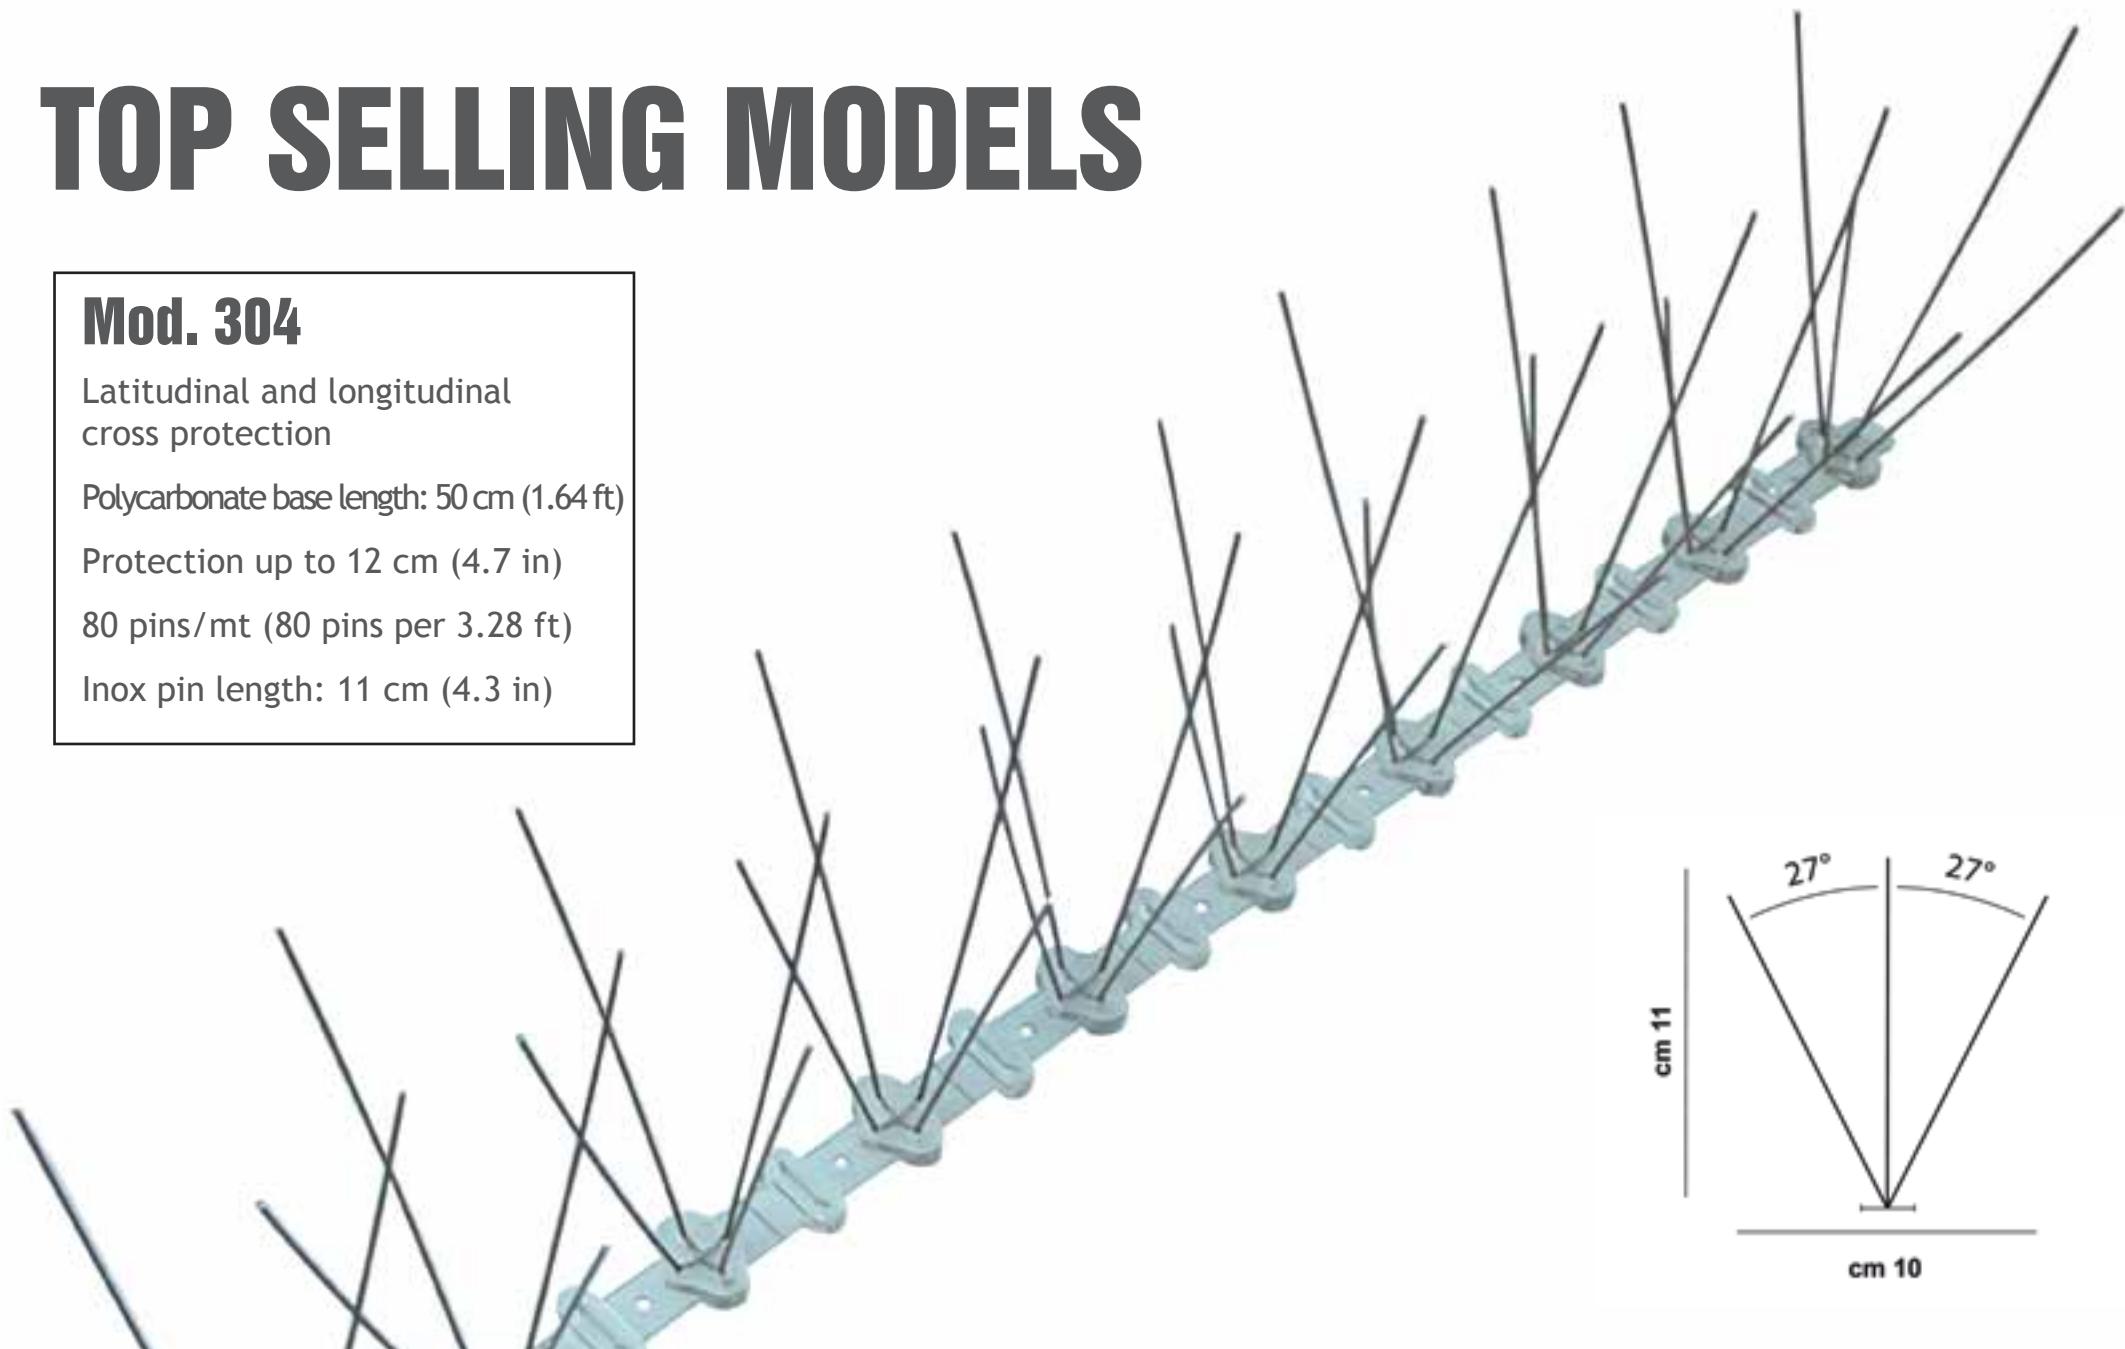

Latitudinal and longitudinal
cross protection

Polycarbonate base length: 50 cm (1.64 ft)

Protection up to 12 cm (4.7 in)

80 pins/mt (80 pins per 3.28 ft)

Inox pin length: 11 cm (4.3 in)

TOP SELLING MODELS

Mod. 311

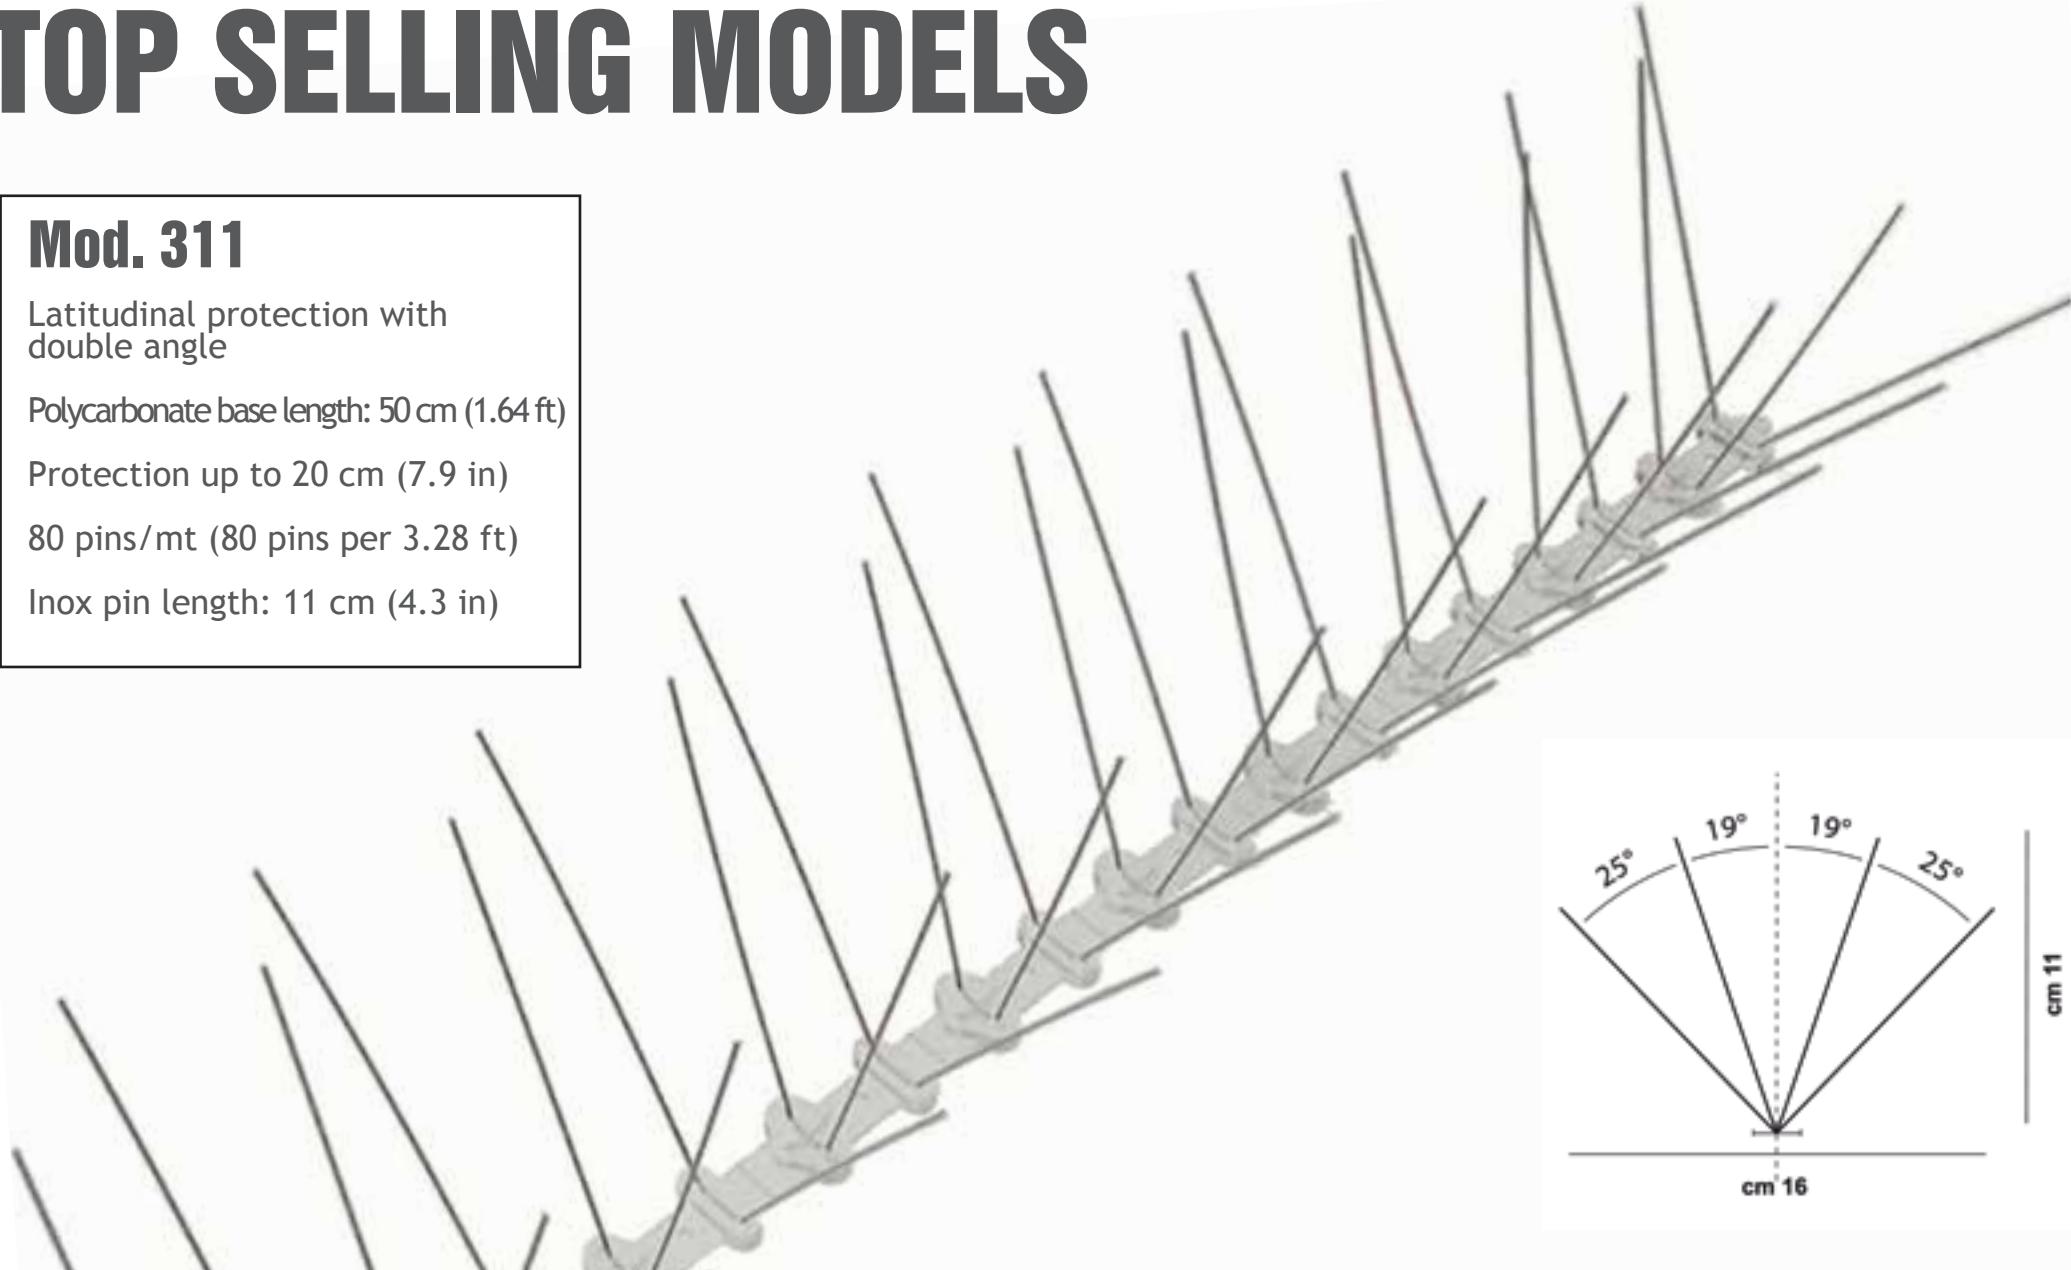

Latitudinal protection with double angle

Polycarbonate base length: 50 cm (1.64 ft)

Protection up to 20 cm (7.9 in)

80 pins/mt (80 pins per 3.28 ft)

Inox pin length: 11 cm (4.3 in)

TOP SELLING MODELS

Mod. 306

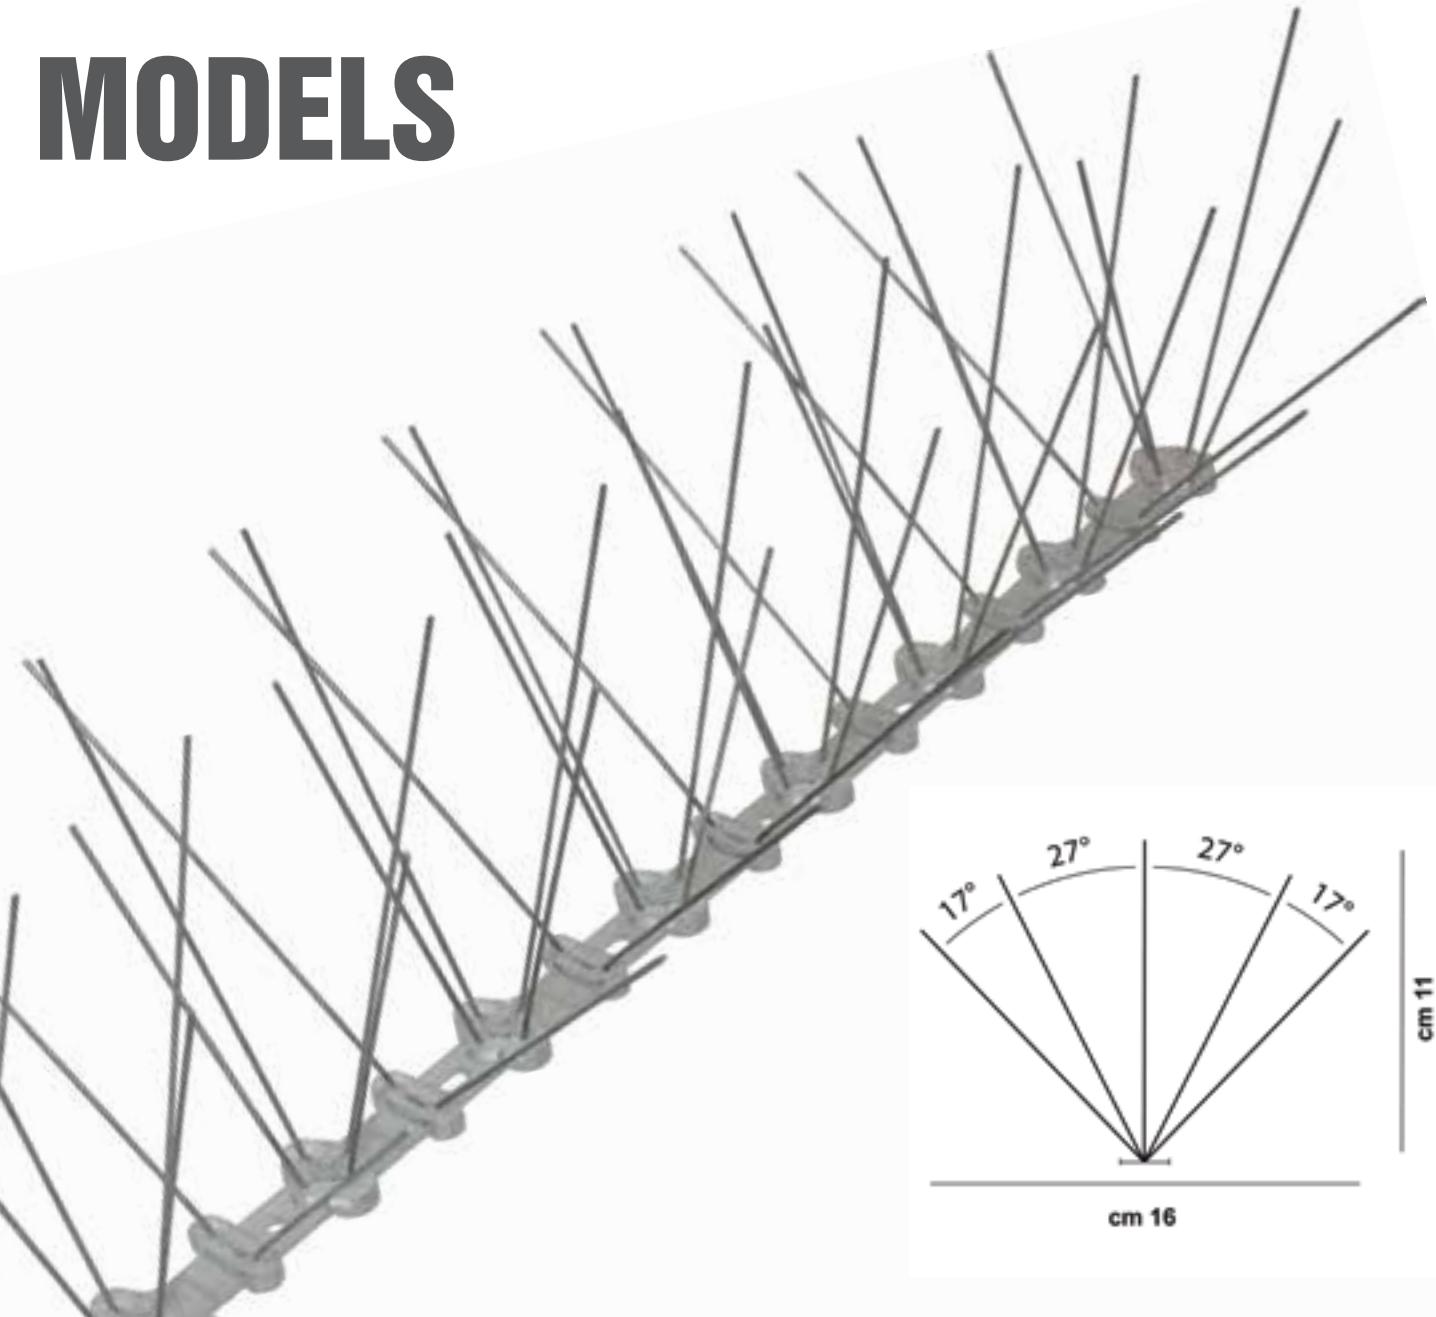

Latitudinal and longitudinal cross protection with double angle

Polycarbonate base length: 50 cm (1.64 ft)

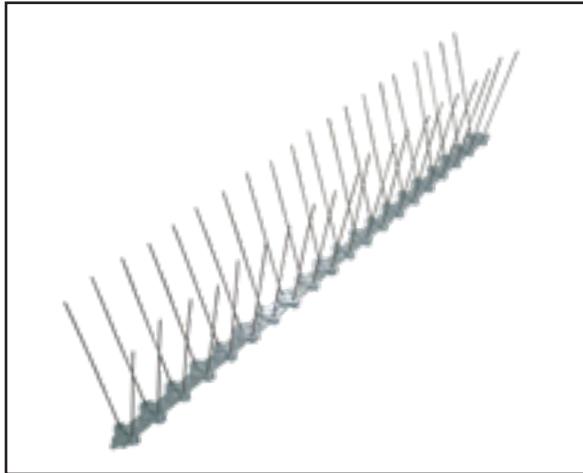

Protection up to 22 cm (8.7 in)

120 pins/mt (120 pins per 3.28 ft)

Inox pin length: 11 cm (4.3 in)

OTHER MODELS

Mod. 305

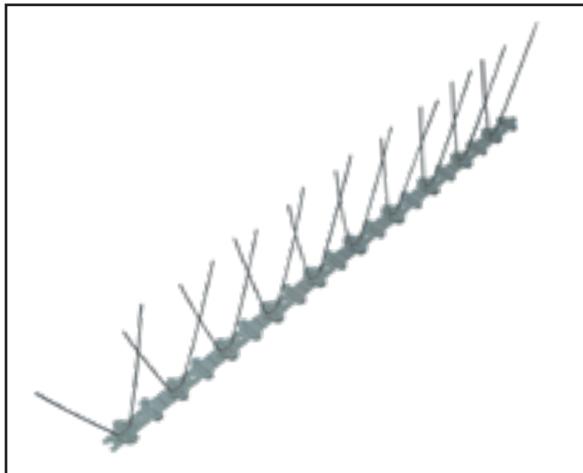

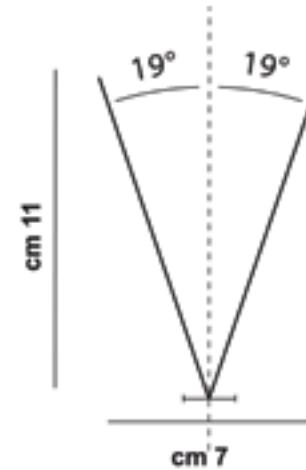

Latitudinal protection

Polycarbonate base length: 50 cm (1.64 ft)

Protection up to 7 cm (2.7 in)

80 pins/mt (80 pins per 3.28 ft)

Inox pin length: 11 cm (4.3 in)

Mod. 307

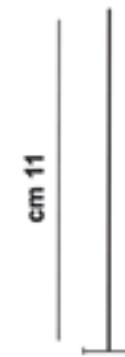

Longitudinal protection

Polycarbonate base length: 50 cm (1.64 ft)

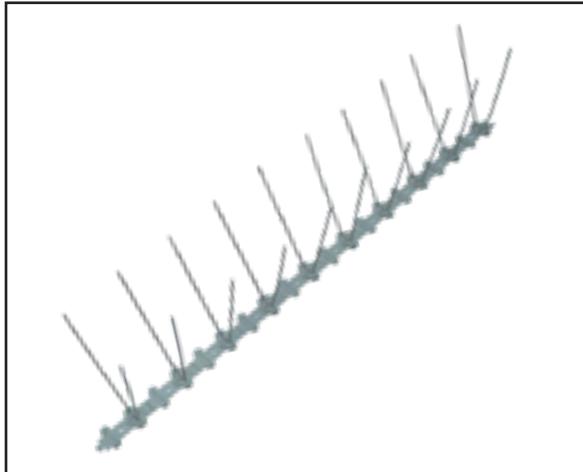

Protection up to 2 cm (0.8 in)

40 pins/mt (40 pins per 3.28 ft)

Inox pin length: 11 cm (4.3 in)

OTHER MODELS

Mod. 308

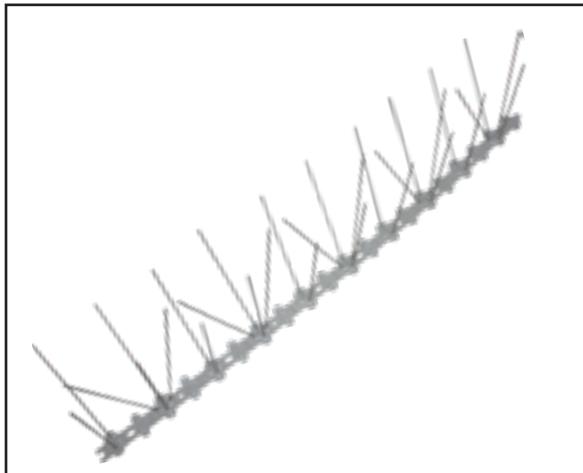

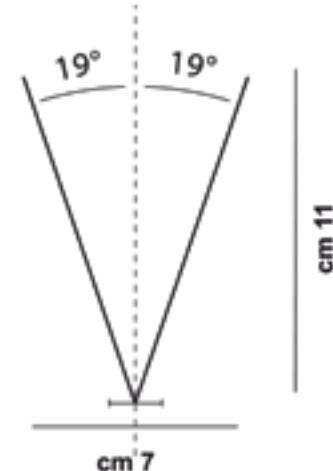

Latitudinal protection

Polycarbonate base length: 50 cm (1.64 ft)

Protection up to 7 cm (2.7 in)

40 pins/mt (40 pins per 3.28 ft)

Inox pin length: 11 cm (4.3 in)

Mod. 360

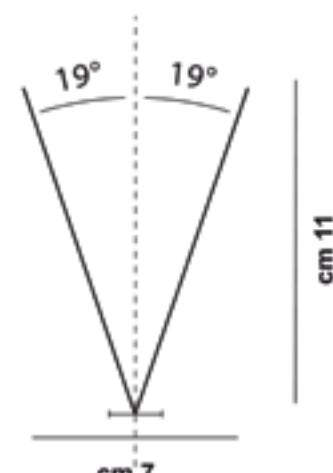

Latitudinal and longitudinal cross protection

Polycarbonate base length: 50 cm (1.64 ft)

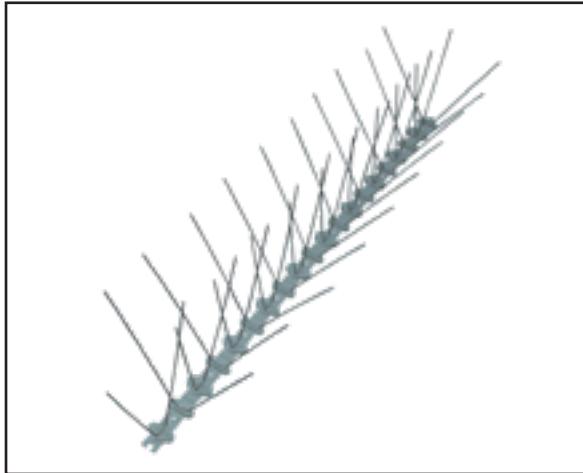

Protection up to 8 cm (3.14 in)

30 pins/mt (30 pins per 3.28 ft)

Inox pin length: 11 cm (4.3 in)

OTHER MODELS

Mod. 312

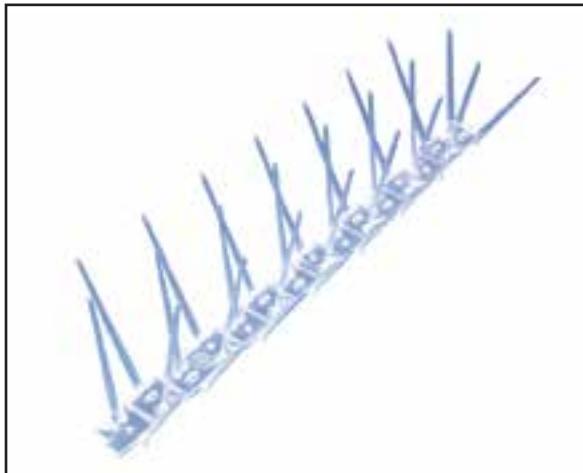

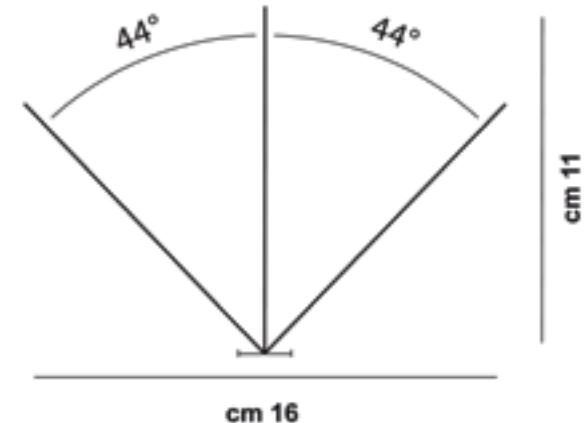

Latitudinal and longitudinal cross protection

Polycarbonate base length: 50 cm (1.64 ft)

Protection up to 18 cm (7.1 in)

80 pins/mt (80 pins per 3.28 ft)

Inox pin length: 11 cm (4.3 in)

Mod. 350

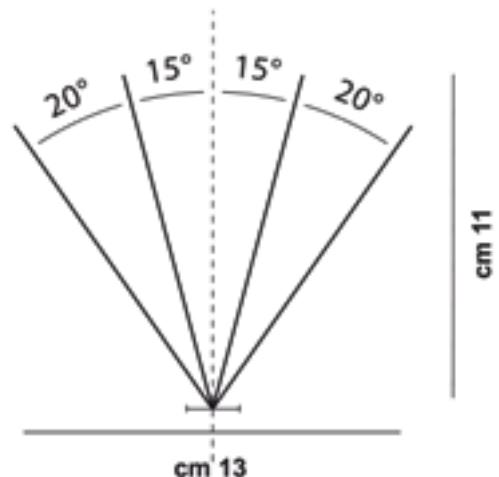

Latitudinal protection with double angle

Polycarbonate base length: 50 cm (1.64 ft)

Protection up to 16 cm (6.3 in)

60 pins/mt (60 pins per 3.28 ft)

Polycarbonate pin length: 11 cm (4.3 in)

TOP FOR SEAGULLS

Mod. 304G

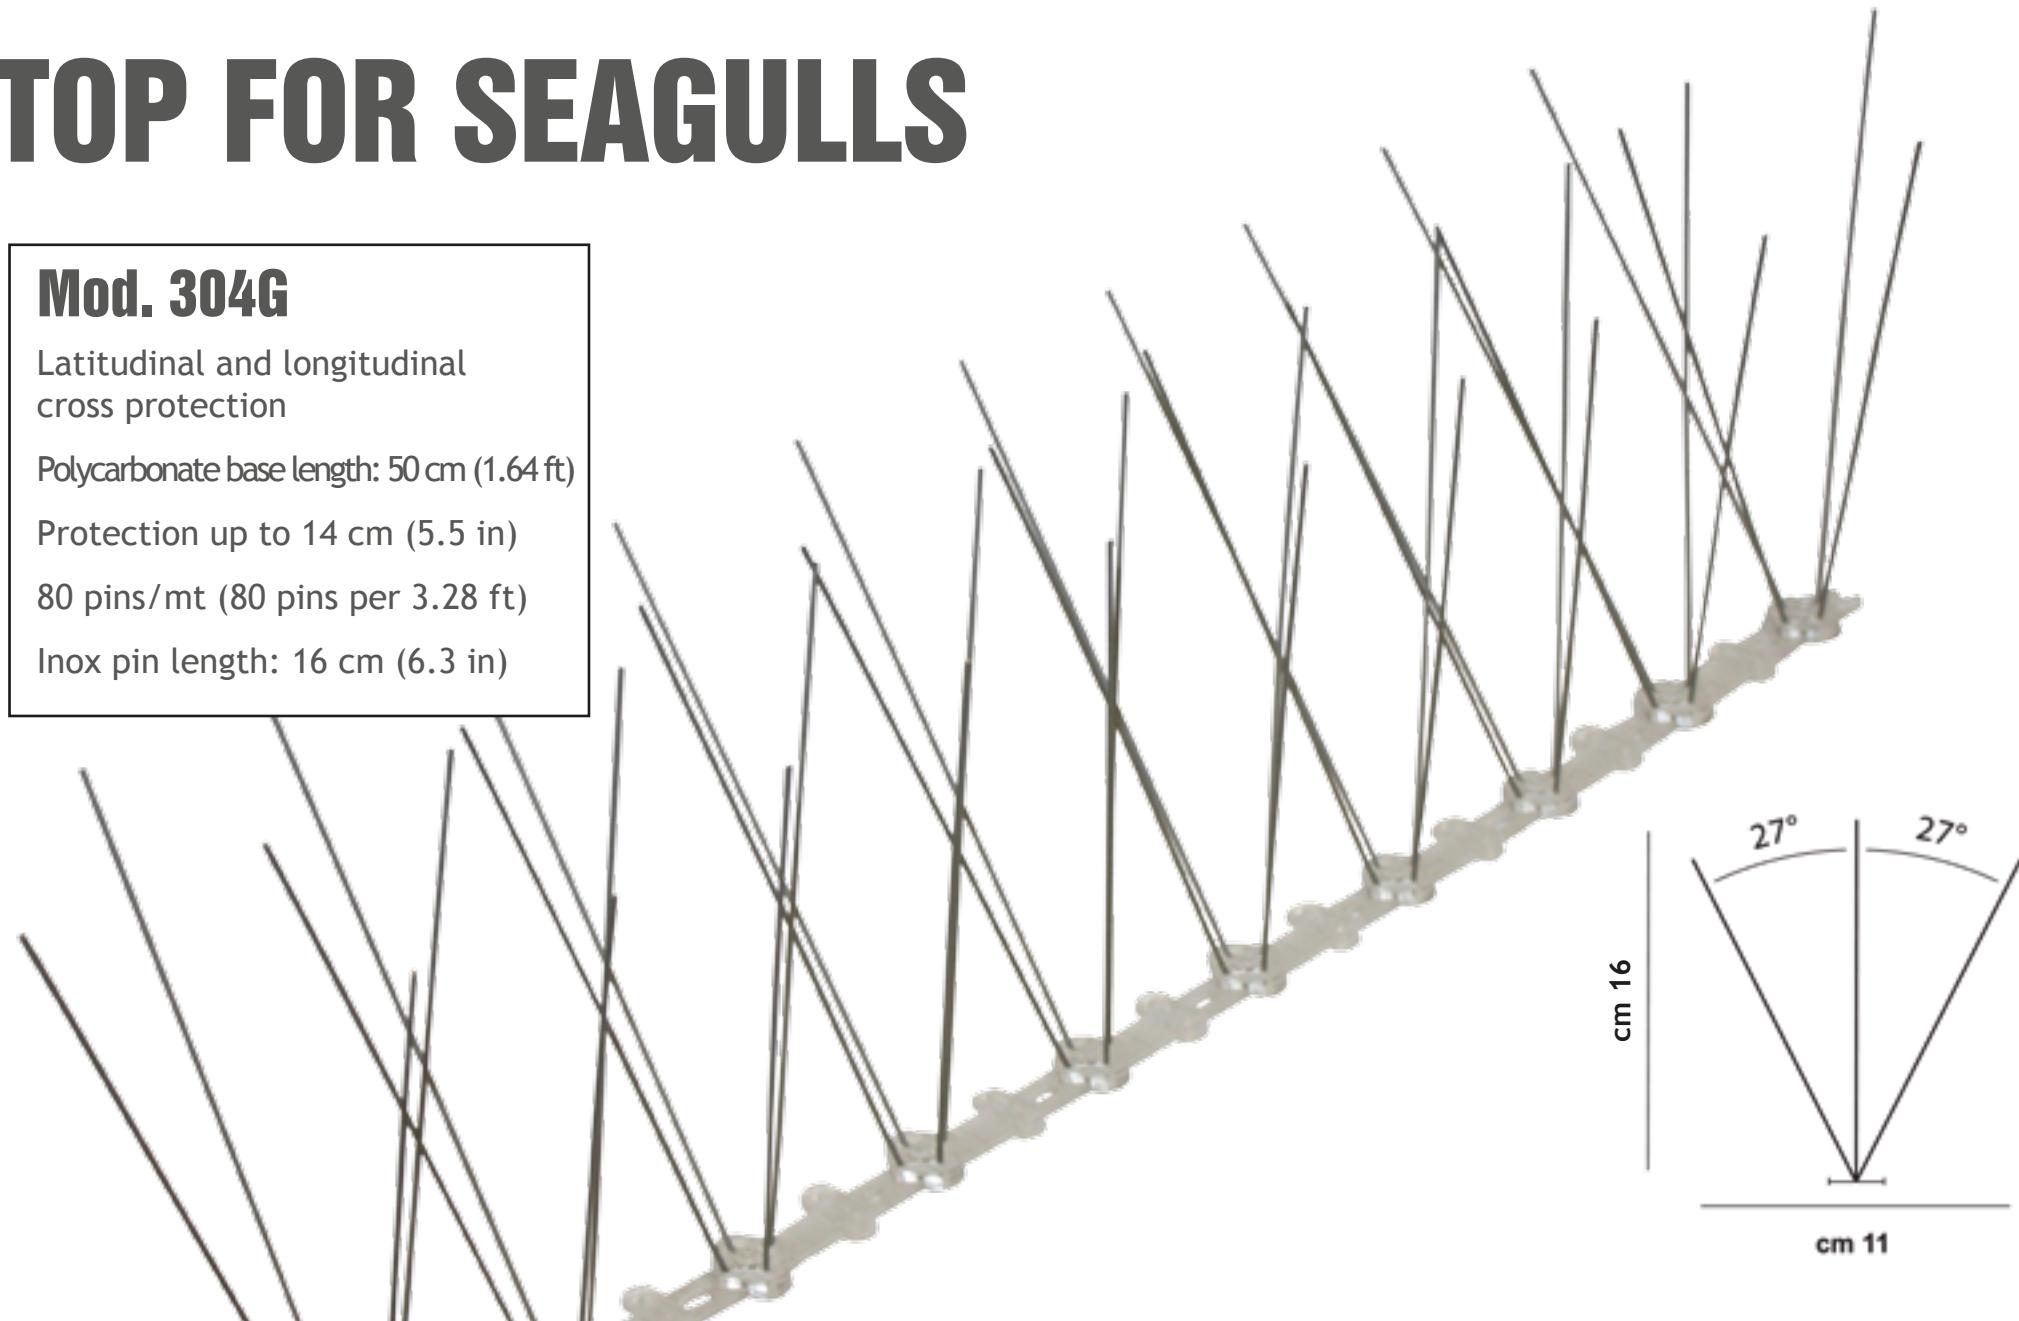

Latitudinal and longitudinal
cross protection

Polycarbonate base length: 50 cm (1.64 ft)

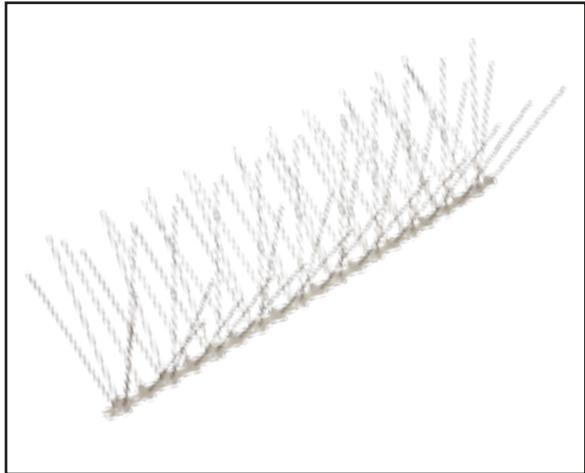

Protection up to 14 cm (5.5 in)

80 pins/mt (80 pins per 3.28 ft)

Inox pin length: 16 cm (6.3 in)

OTHER MODELS FOR SEAGULLS

Mod. 306G

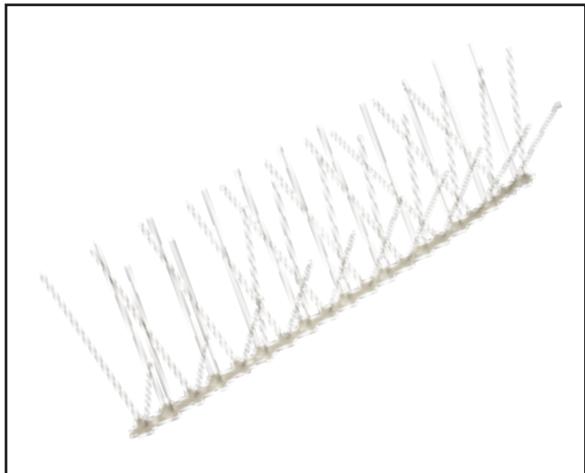

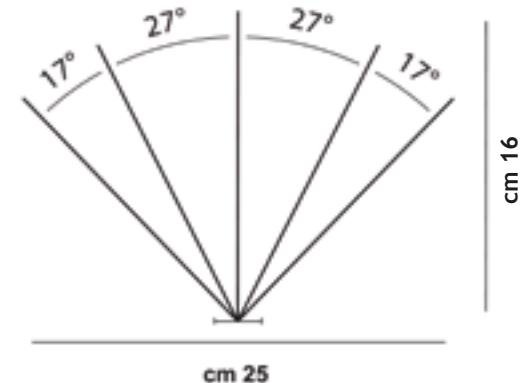

Latitudinal and longitudinal cross protection with double angle

Polycarbonate base length: 50 cm (1.64 ft)

Protection up to 28 cm (11 in)

120 pins/mt (120 pins per 3.28 ft)

Inox pin length: 16 cm (6.3 in)

Mod. 311G

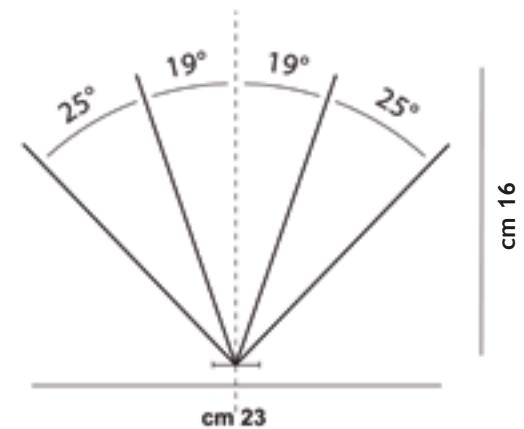

Longitudinal protection with double angle

Polycarbonate base length: 50 cm (1.64 ft)

Protection up to 25 cm (9.8 in)

80 pins/mt (80 pins per 3.28 ft)

Inox pin length: 16 cm (6.3 in)

ECOBIRDS VS COMPETITORS

Flexible and harmonic polycarbonate base

Universal base for all models

Length: 50 cm (1.64 ft)

Base width ideal also for narrow surfaces

Base easily combined to clamp-on clips

Latitudinal and longitudinal cross protection (+)

Base can be easily split in 5 cm (1.9 in) modules

Rigid base

Different base for each model

Length: 33 cm (1.08 ft)

Base width not suitable for narrow surfaces

Base not suitable for combination with clips

Single protection (|)

Base can be cut only with dedicated tools

STAINLESS STEEL TOP ITEMS

Mod. 310

Latitudinal and longitudinal cross protection

Inox base length: 1 mt (3.28 ft)

Protection up to 14 cm (5.5 in)

66 pins/mt (66 pins per 3.28 ft)

Inox pin length: 10 cm (3.9 in)

STAINLESS STEEL TOP ITEMS

Mod. 313

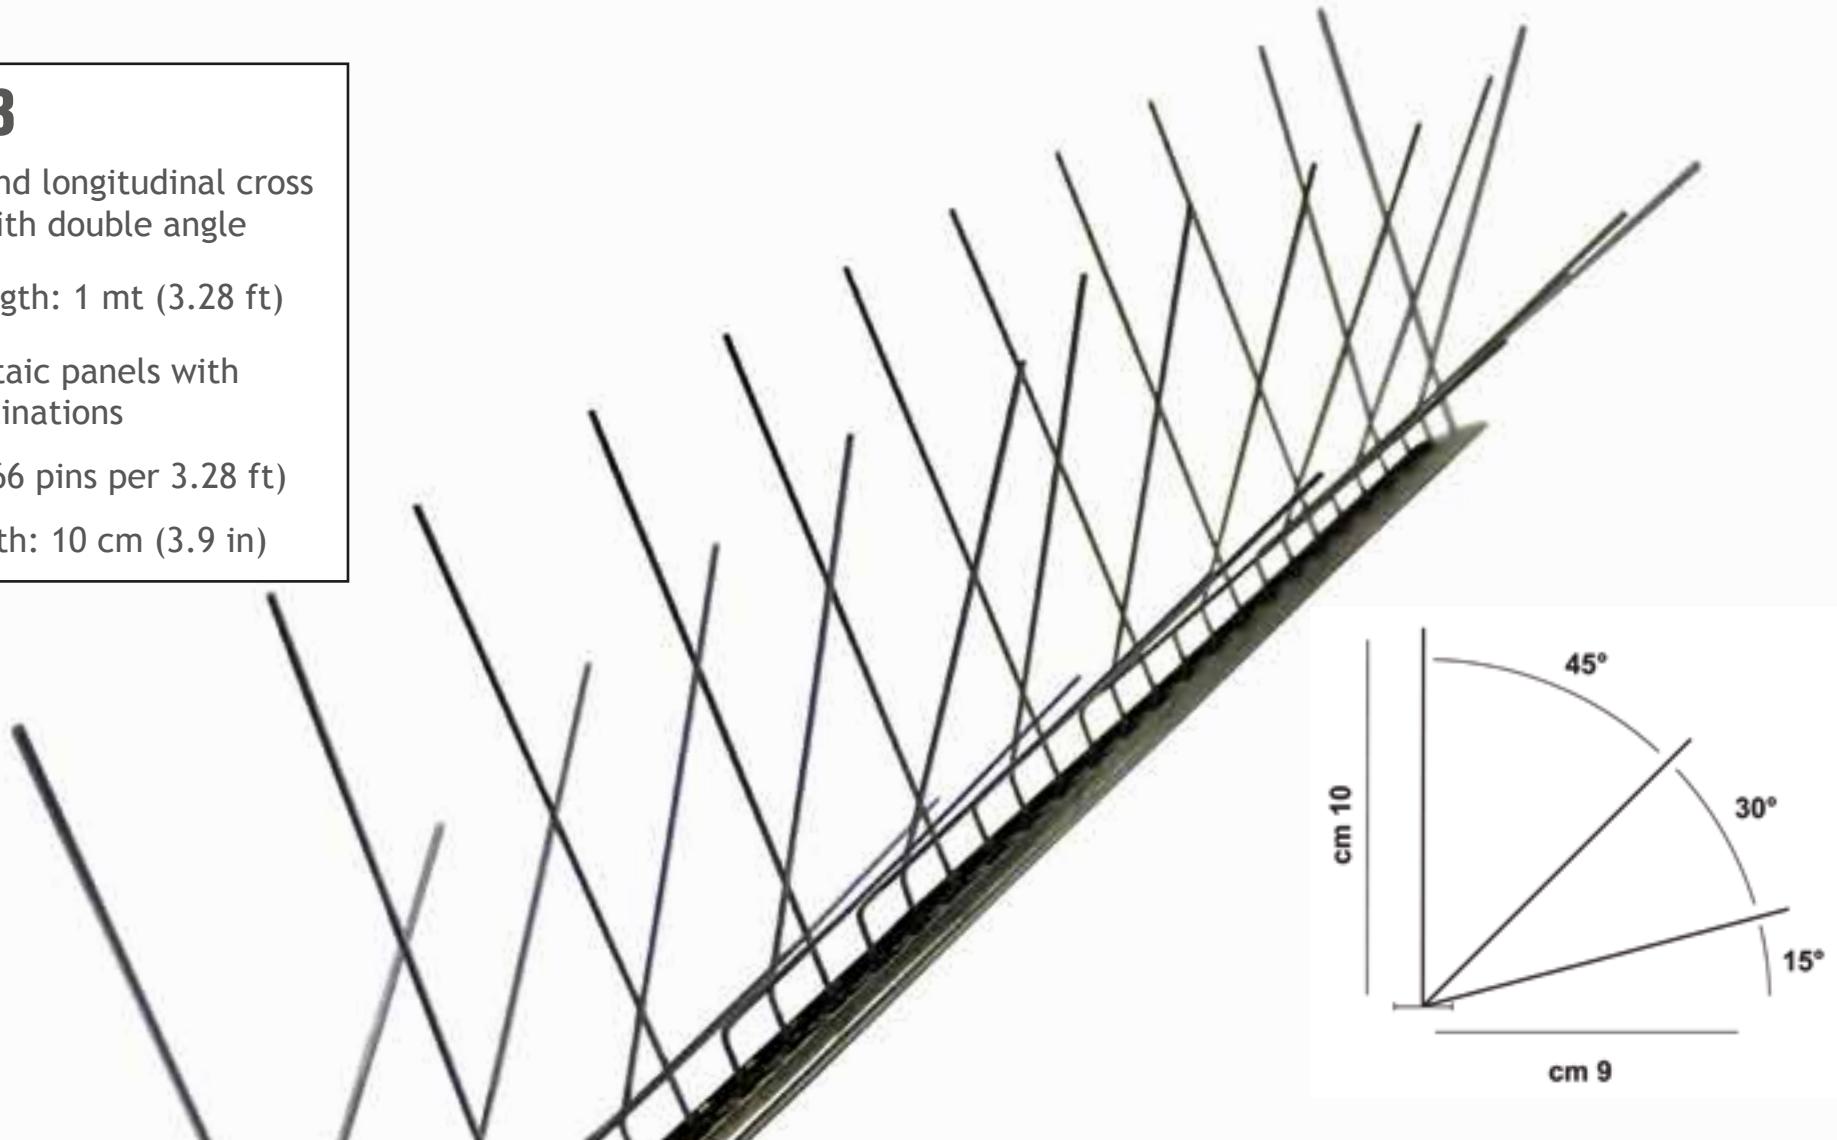

Latitudinal and longitudinal cross protection with double angle

Inox base length: 1 mt (3.28 ft)

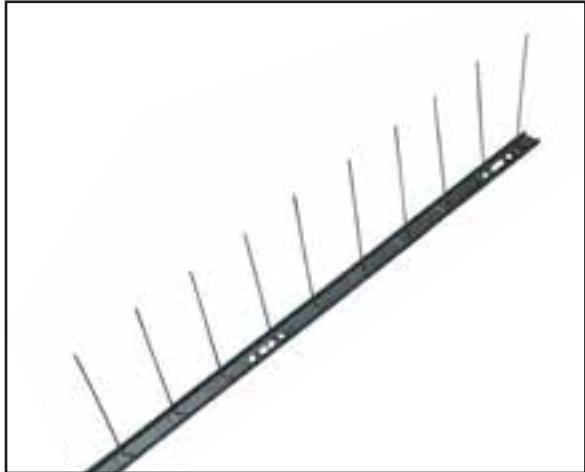

For photovoltaic panels with different inclinations

66 pins/mt (66 pins per 3.28 ft)

Inox pin length: 10 cm (3.9 in)

OTHER STAINLESS STEEL ITEMS

Mod. 301

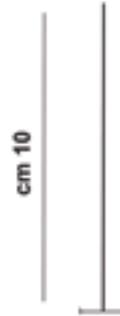

Longitudinal protection

Inox base length: 1 mt (3.28 ft)

Protection up to 2 cm (0.8 in)

33 pins/mt (33 pins per 3.28 ft)

Inox pin length: 10 cm (3.9 in)

Mod. 302

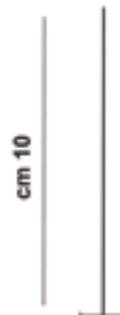

Longitudinal protection

Inox base length: 1 mt (3.28 ft)

Protection up to 2 cm (0.8 in)

66 pins/mt (66 pins per 3.28 ft)

Inox pin length: 10 cm (3.9 in)

OTHER STAINLESS STEEL ITEMS

Mod. 303

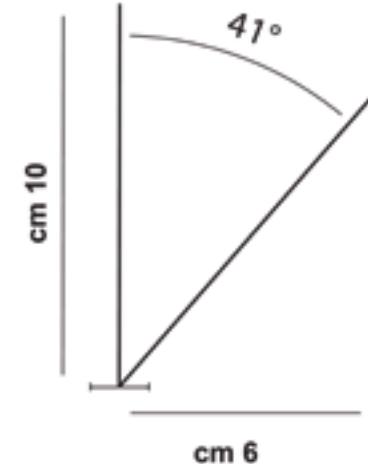

Latitudinal and longitudinal cross protection

Inox base length: 1 mt (3.28 ft)

Protection up to 8 cm (3.1 in)

66 pins/mt (66 pins per 3.28 ft)

Inox pin length: 10 cm (3.9 in)

Mod. 314

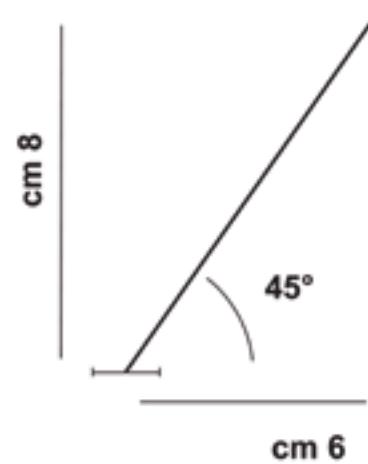

Longitudinal protection ideal for photovoltaic panels

Inox base length: 1 mt (3.28 ft)

Protection up to 8 cm (3.1 in)

66 pins/mt (66 pins per 3.28 ft)

Inox pin length: 10 cm (3.9 in)

OTHER STAINLESS STEEL ITEMS

Mod. 315

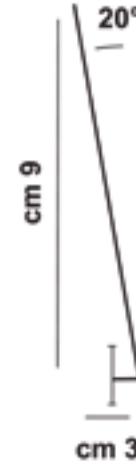

Longitudinal protection ideal
for shutters

Inox base length: 1 mt (3.28 ft)

Protection up to 3 cm (1.2 in)

66 pins/mt (66 pins per 3.28 ft)

Inox pin length: 10 cm (3.9 in)

Mod. 316

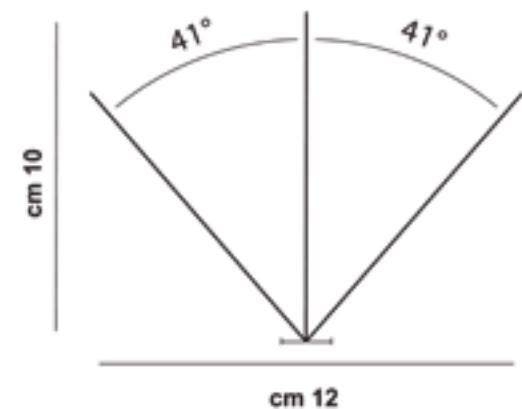

Latitudinal and longitudinal
protection

Inox base length: 1 mt (3.28 ft)

Protection up to 12 cm (4.7 in)

60 pins/mt (60 pins per 3.28 ft)

Inox pin length: 10 cm (3.9 in)

ECOBIRDS VS COMPETITORS

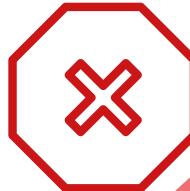

Resistant base with strengthened edges

Length: 100 cm (3.28 ft)

Customisable pin distance

Several different pin angles

Extremely versatile installation possibilities

Weaker base

Length: 50 cm (1.64 ft)

Fixed pin distance

Limited pin angles

Reduced installation possibilities

ORNAMENTAL COPPER SPIKES

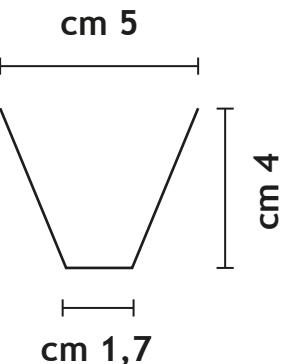

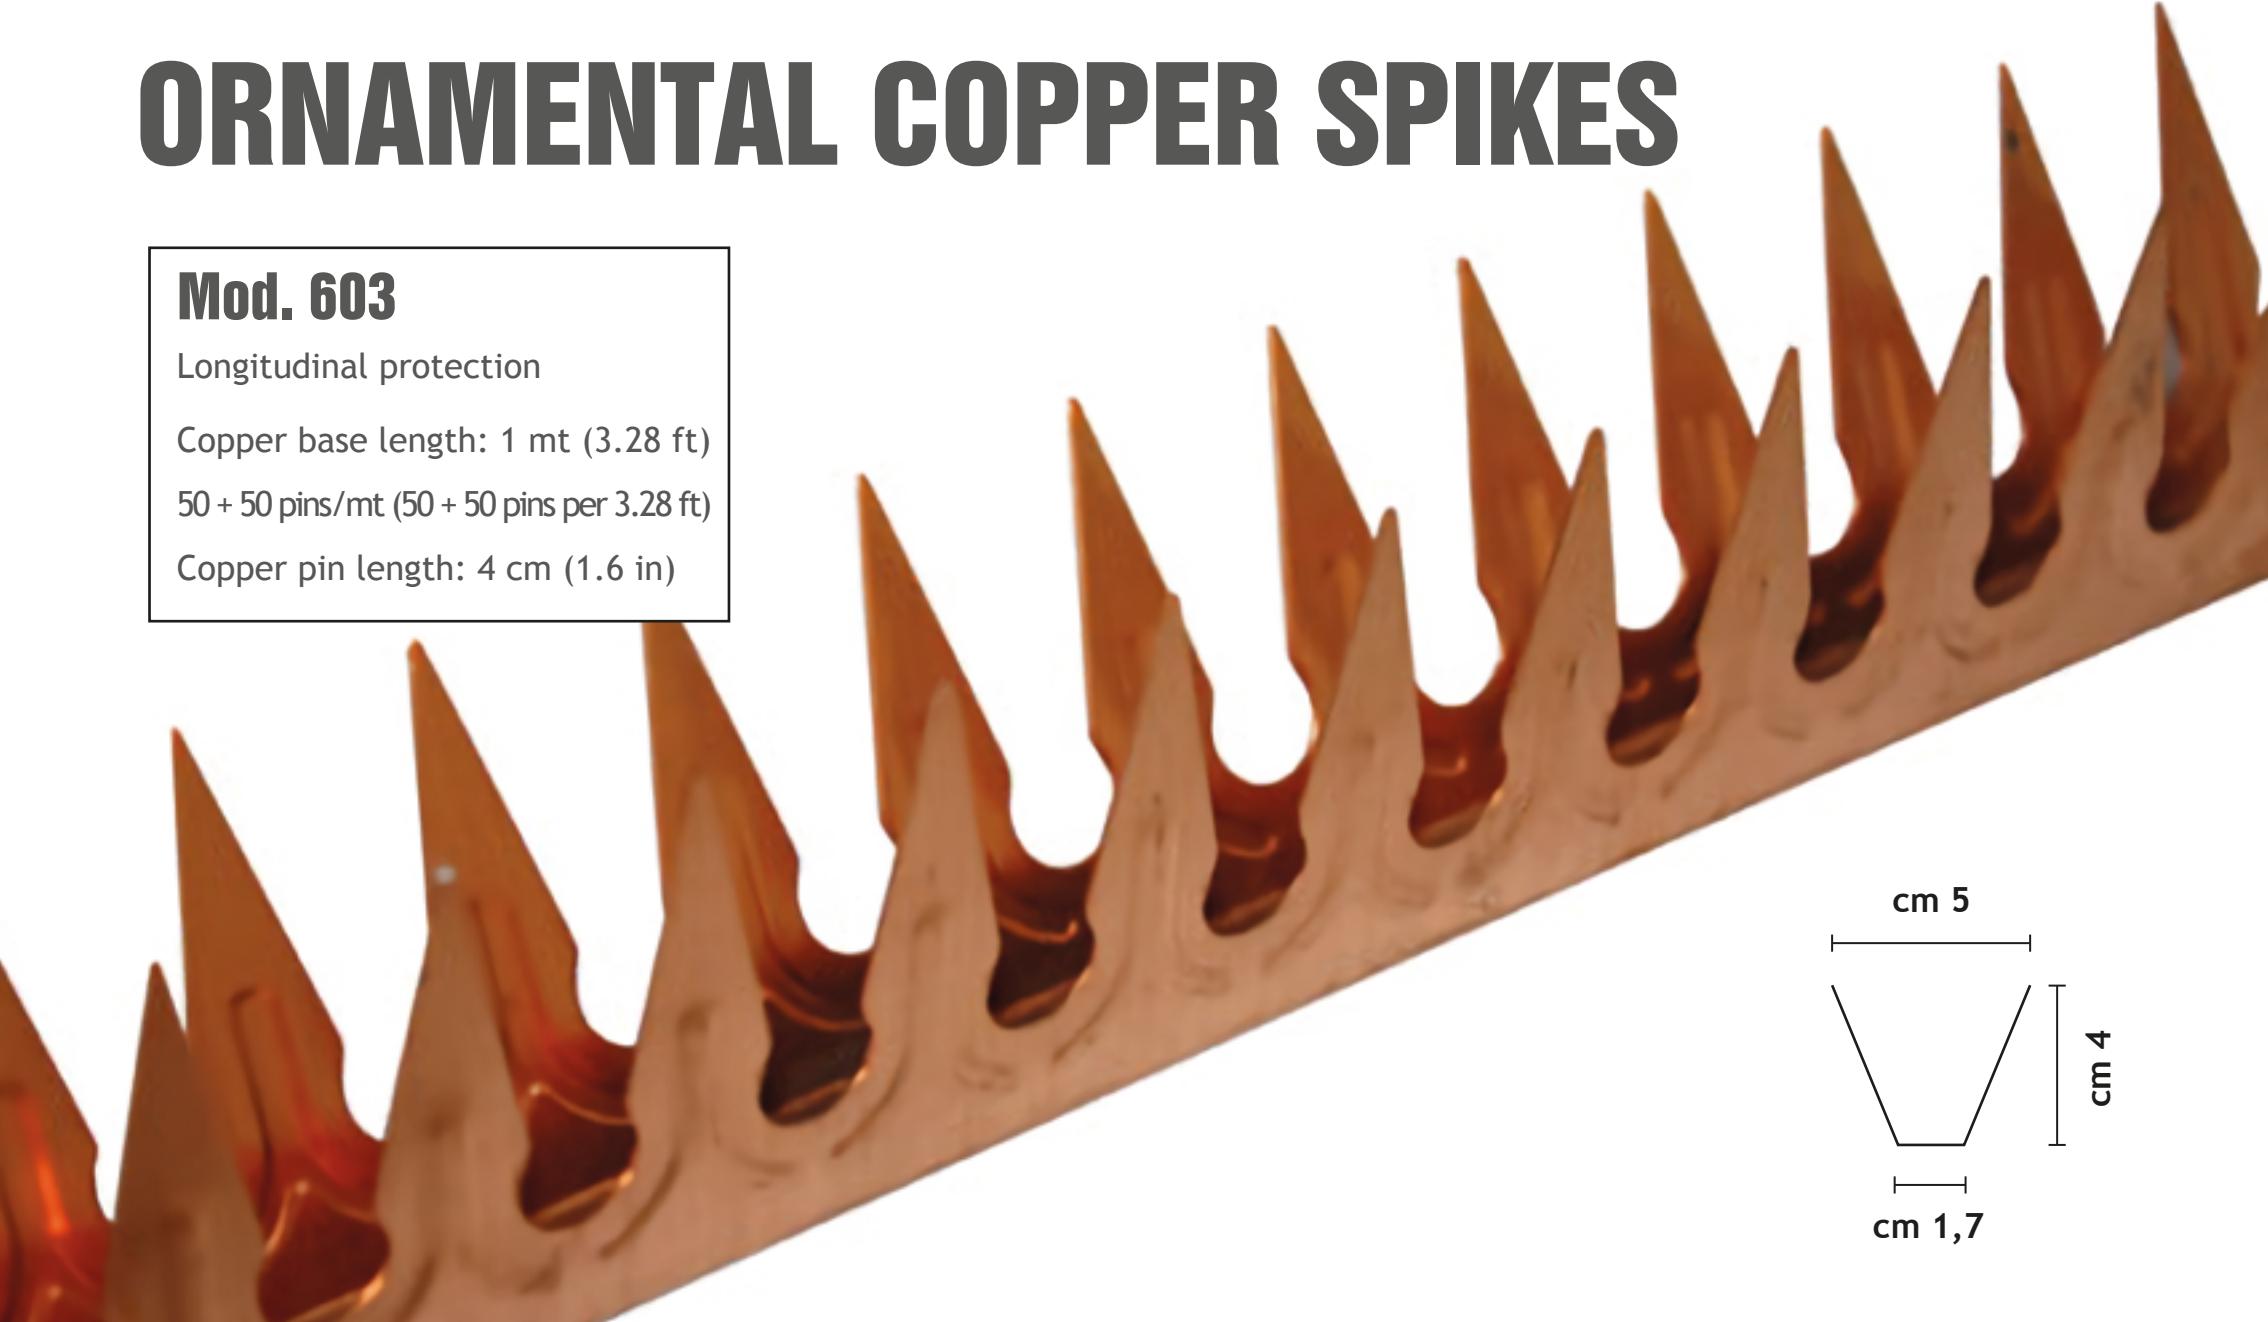

Mod. 603

Longitudinal protection

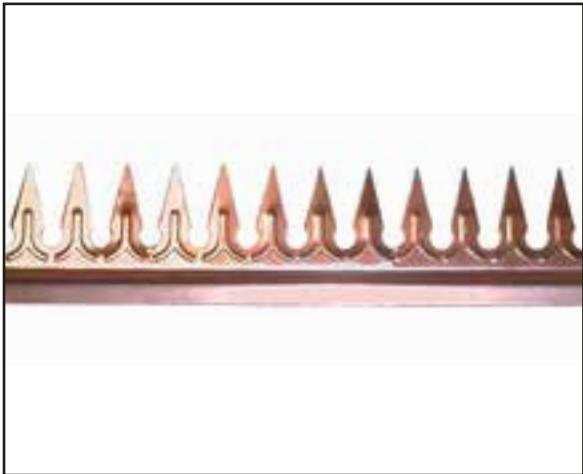

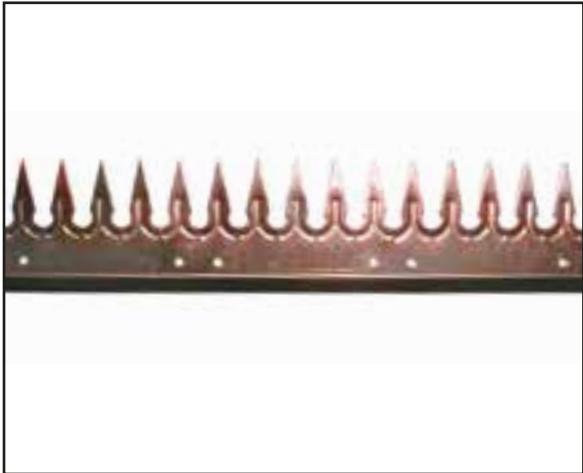

Copper base length: 1 mt (3.28 ft)

50 + 50 pins/mt (50 + 50 pins per 3.28 ft)

Copper pin length: 4 cm (1.6 in)

ORNAMENTAL COPPER SPIKES

Mod. 601

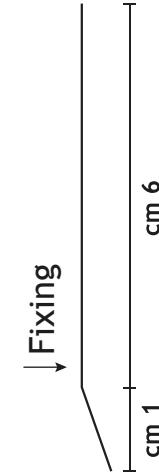

Longitudinal protection

Frontal fixing

Copper base length: 1 mt (3.28 ft)

50 pins/mt (50 pins per 3.28 ft)

Copper pin length: 6 cm (2.4 in)

Mod. 602

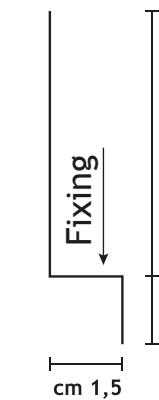

Longitudinal protection

Fixing from the top

Copper base length: 1 mt (3.28 ft)

50 pins/mt (50 pins per 3.28 ft)

Copper pin length: 6 cm (2.4 in)

ORNAMENTAL SHEET IRON SPIKES

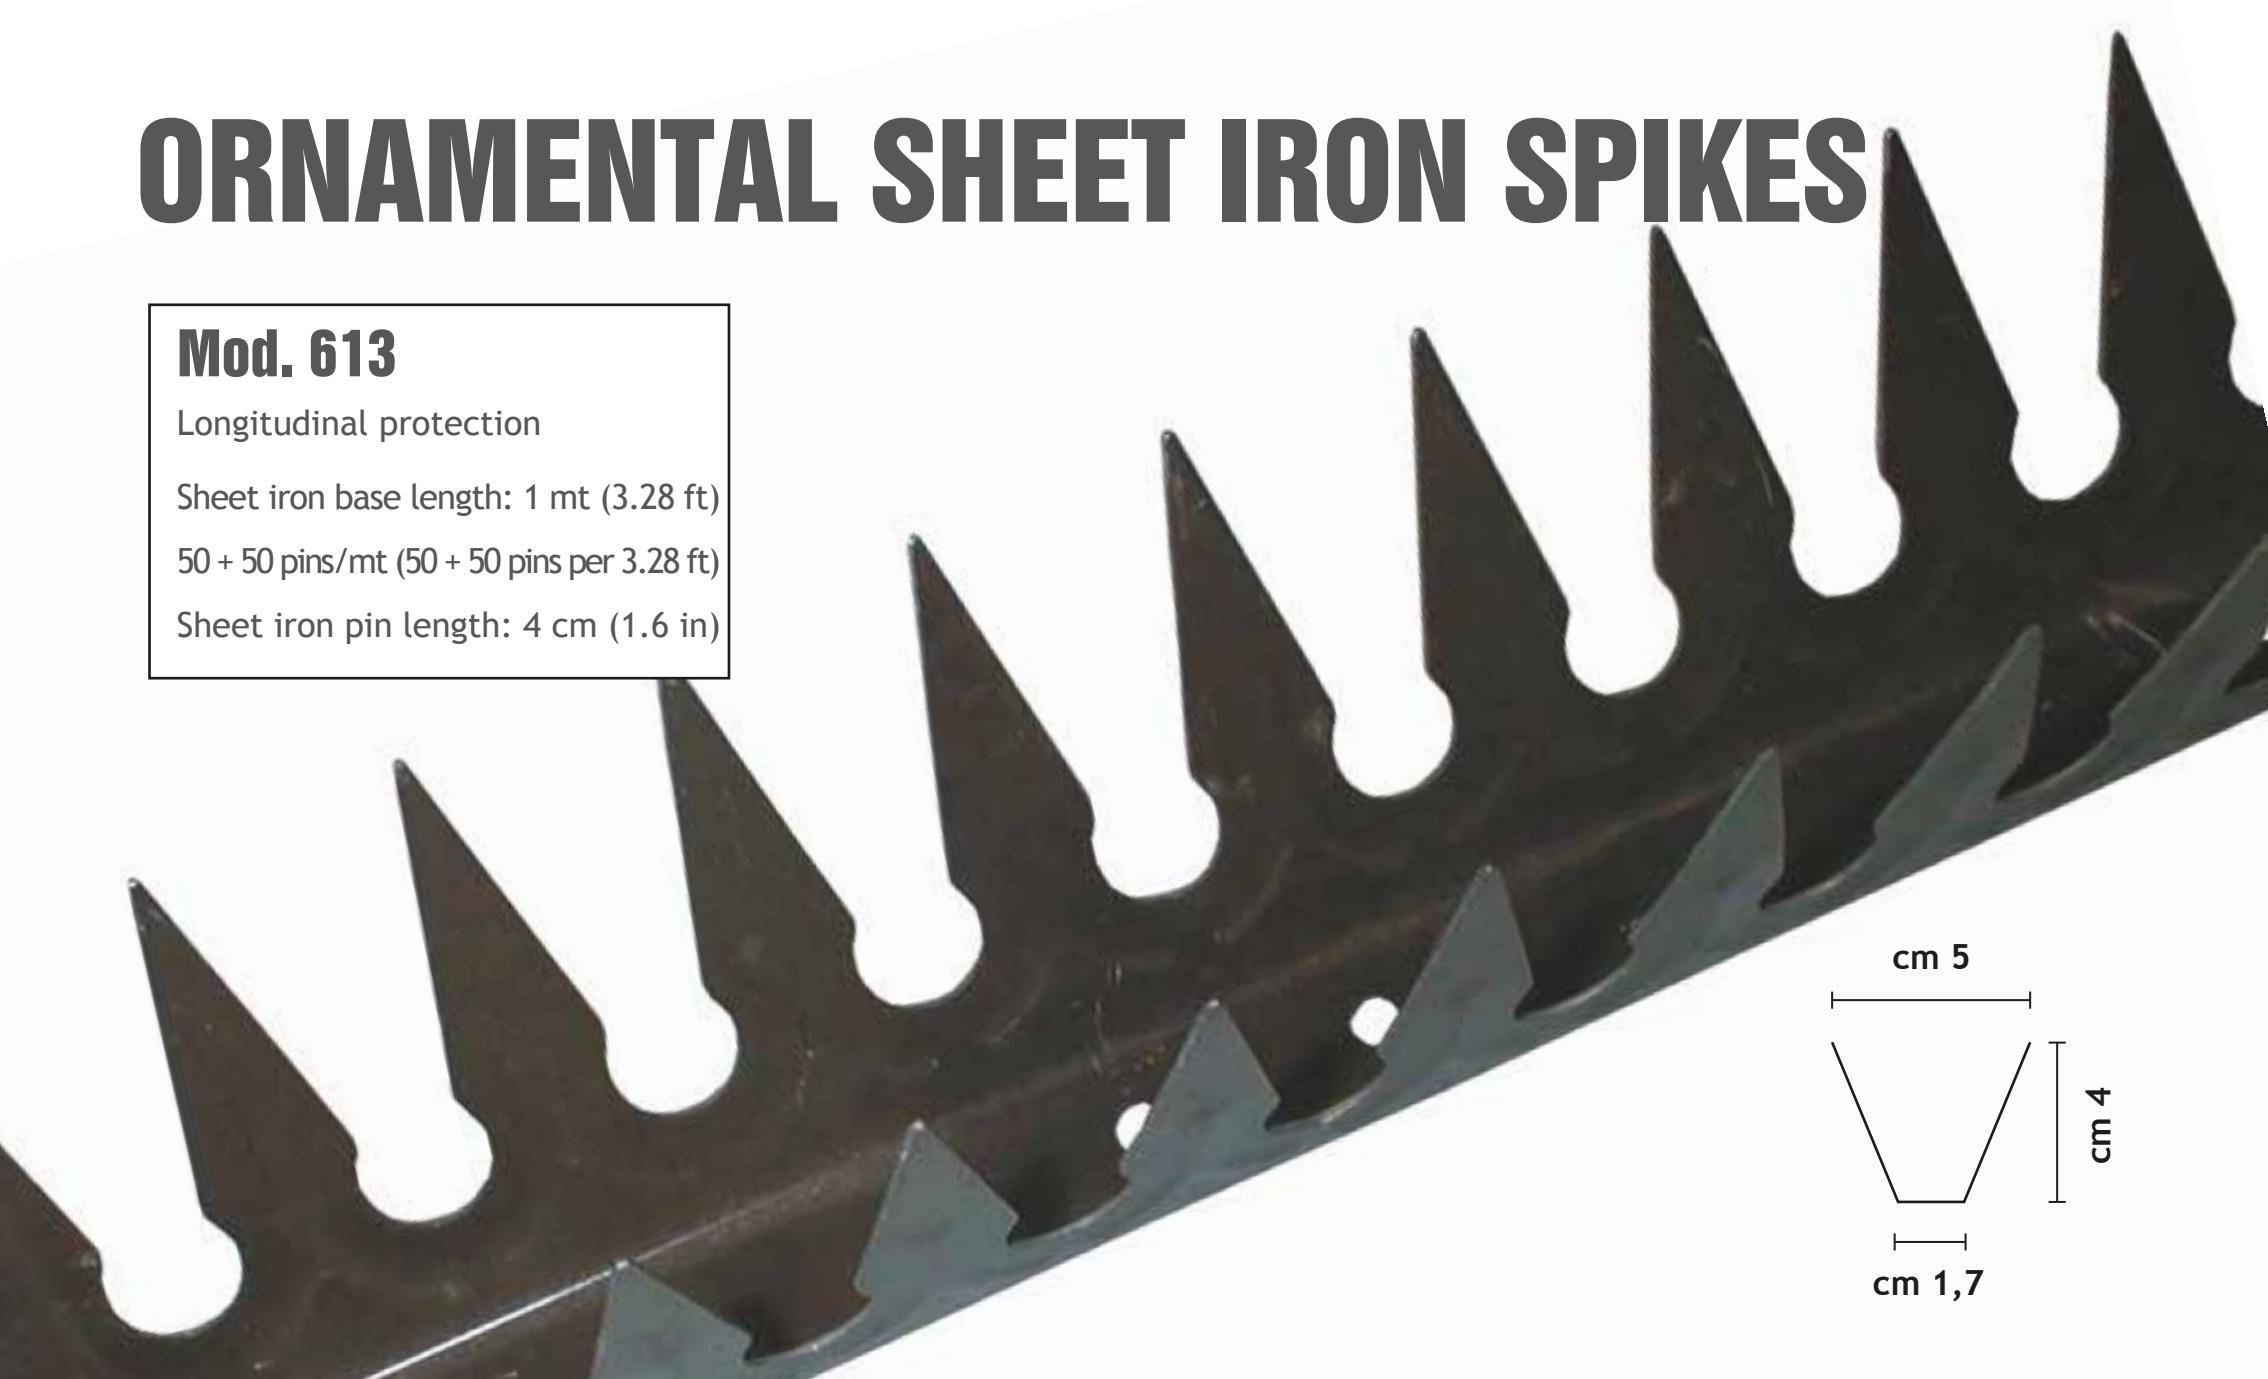

Mod. 613

Longitudinal protection

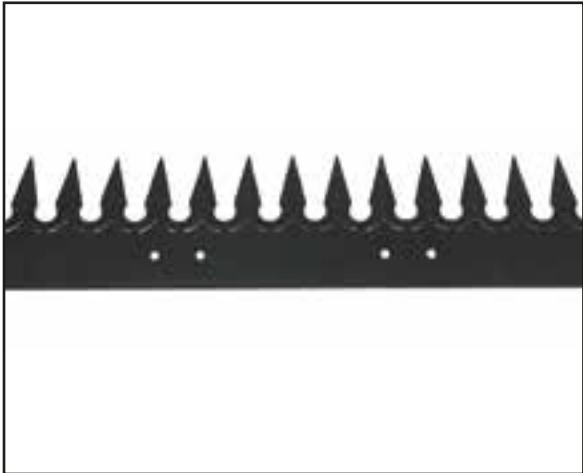

Sheet iron base length: 1 mt (3.28 ft)

50 + 50 pins/mt (50 + 50 pins per 3.28 ft)

Sheet iron pin length: 4 cm (1.6 in)

ORNAMENTAL SHEET IRON SPIKES

Mod. 611

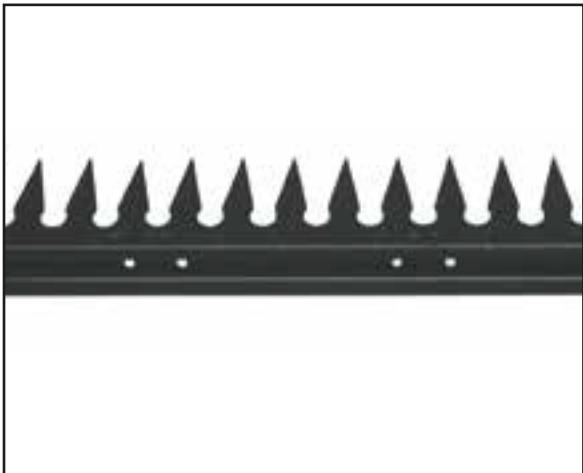

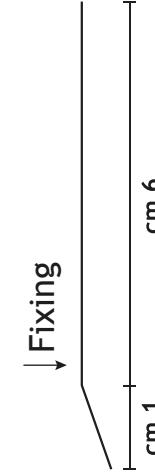

Longitudinal protection

Frontal fixing

Sheet iron base length: 1 mt (3.28 ft)

50 pins/mt (50 pins per 3.28 ft)

Sheet iron pin length: 6 cm (2.4 in)

Mod. 612

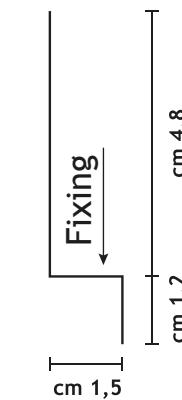

Longitudinal protection

Fixing from the top

Sheet iron base length: 1 mt (3.28 ft)

50 pins/mt (50 pins per 3.28 ft)

Sheet iron pin length: 6 cm (2.4 in)

TOP SELLING COPPER MODEL

Mod. 309

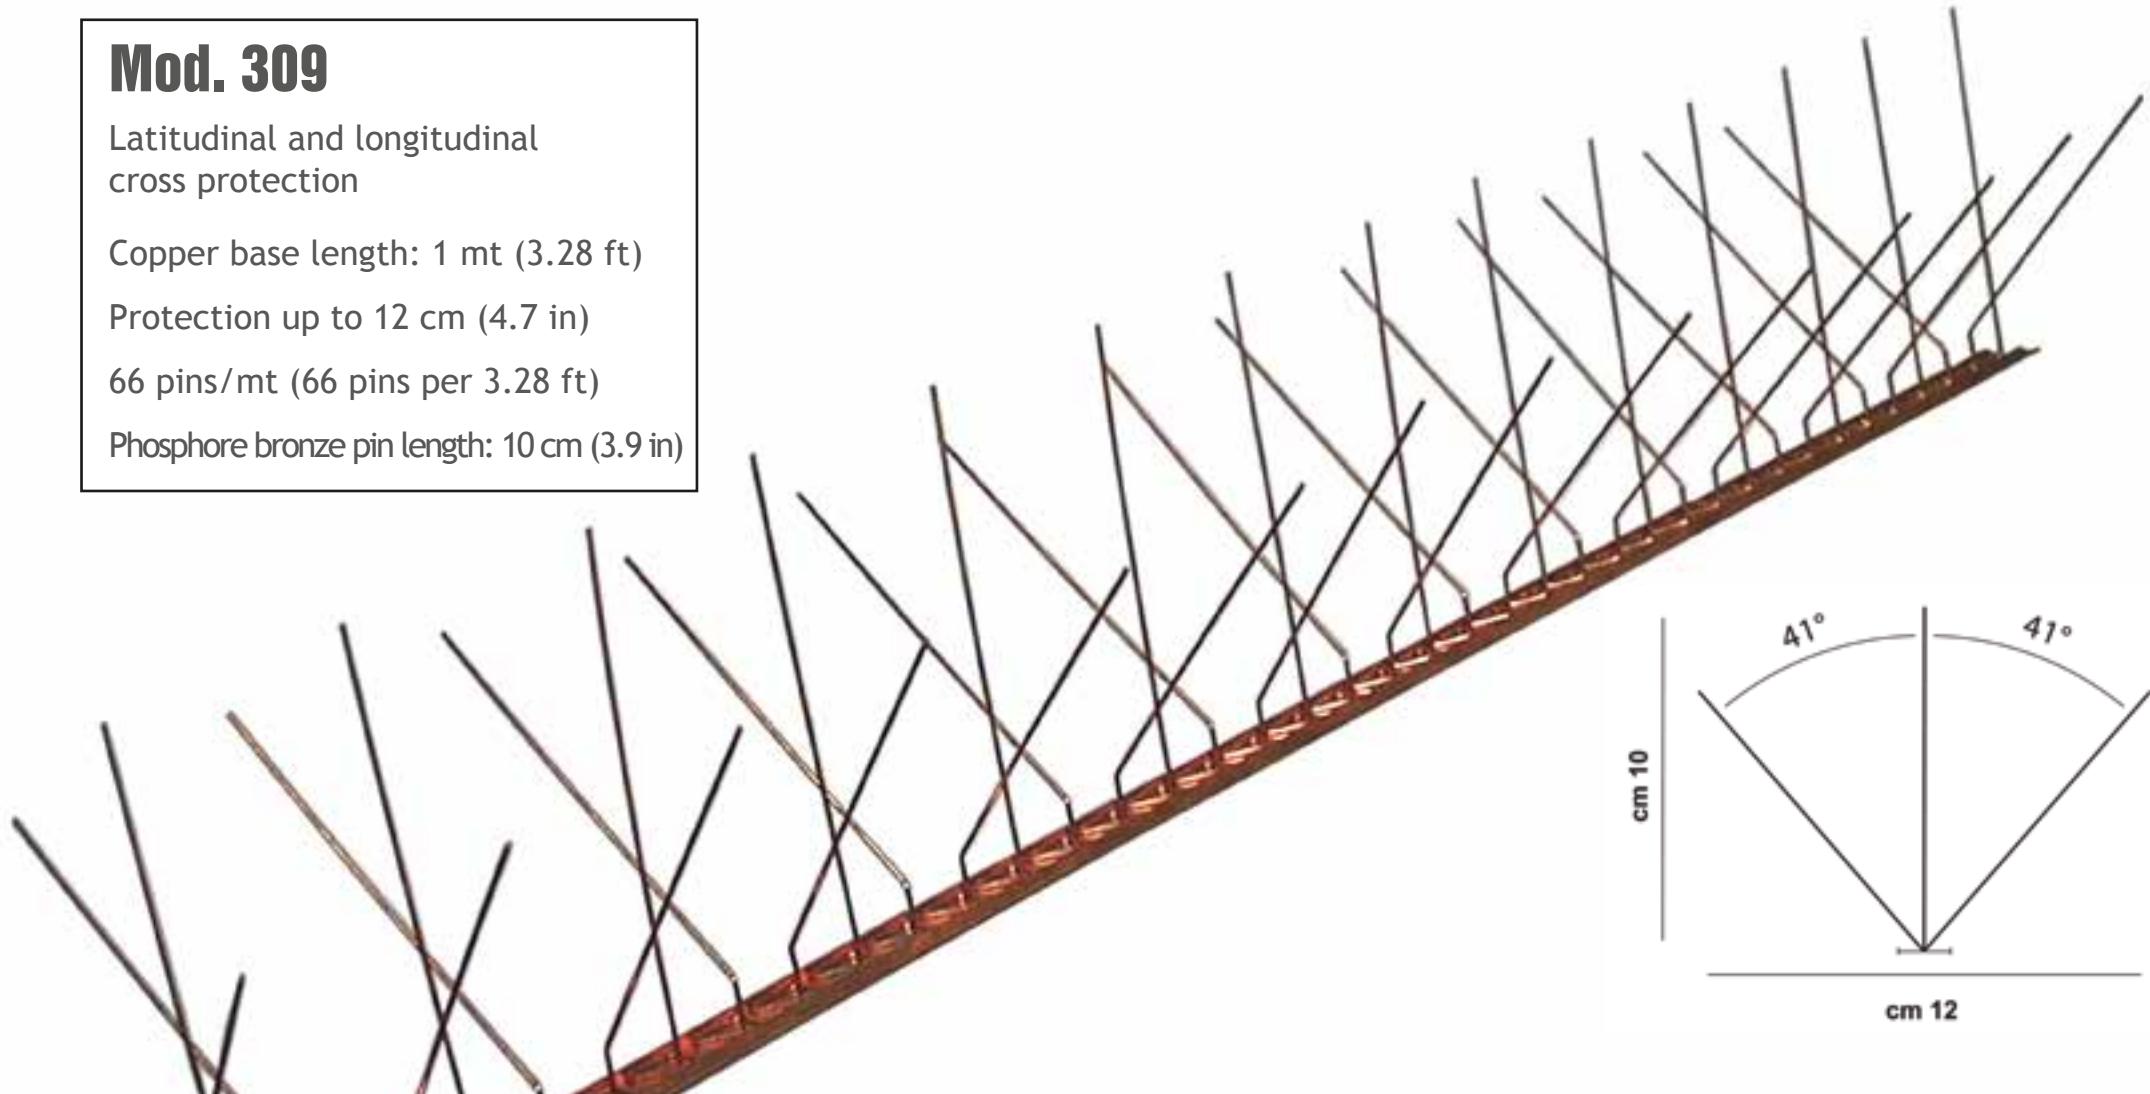

Latitudinal and longitudinal
cross protection

Copper base length: 1 mt (3.28 ft)

Protection up to 12 cm (4.7 in)

66 pins/mt (66 pins per 3.28 ft)

Phosphore bronze pin length: 10 cm (3.9 in)

The ECOBIRDS range is designed,
industrialized and produced entirely in Italy.
