Philosophy

## **O.S.D. gruppo Ecotech**

**has been in the business of developing, researching and manufacturing specific devices for controlling rodents for over a decade.**

**The Ecorodent range stems from the need for professional devices which guarantee quality and safety when carrying out rodent control as frequently pointed out by sector-based operators.**

**The synergy between OSD and the companies in the group, supported by technical trials in the field and coordinated by expert operators, has led to the development of various models aimed at fulfilling all requirements and applications.**

# **INNOVATIVE TWO-IN-ONE RODENT BAIT STATION AND TRAP**

**MULTIFUNCTIONAL**

**VERSATILE**

**CUSTOMISABLE**

**PATENT PENDING**

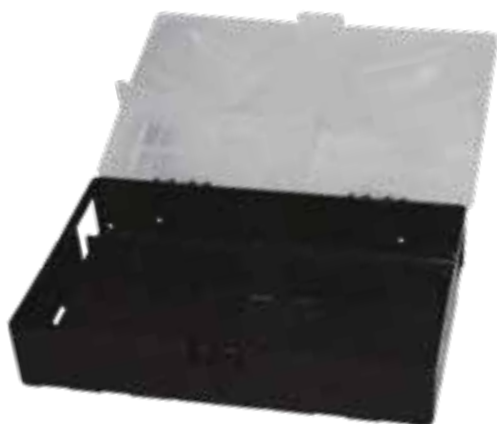

# Mod. 9835 RAFFAELLO

## Plastic rodent bait station

It comes with metal rods to secure rodenticides, wall fixing system and a safe locking mechanism, that makes this bait station unaccessible to unauthorised personnel. It can be easily transformed from a regular bait station into something different, as it can also lodge a glue board, a snap trap or a removable trapping mechanism. Mod 9835 is one-of-a-kind station, with no equal around the world.

**Mod. 9499**

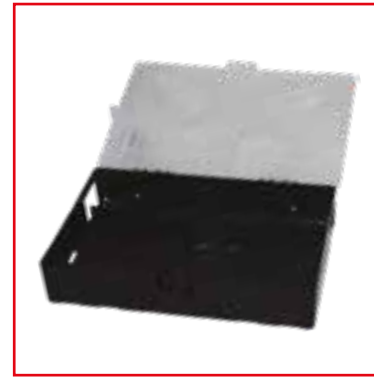

# Mod. 1555 LEONARDO

## Plastic multiple catch trap

It features a safe locking key to prevent tampering and a trapping mechanism in sturdy plastic, that can be easily removed and substituted by a glue trap, a snap trap or a trapping system in galvanised steel. Specifically designed to be multifunctional and versatile, mod 1555 is absolutely unique in the Pest Management global market.
